

## **Nilsson Associates, Ltd. – Designed New Athletic Stadium Building**

### **Architecture, Planning and Interior Design “for Educators by Educators”**

SOMERVILLE, Mass. – February 15, 2005 – Nilsson Associates designed Endicott College’s new Athletic Stadium Building.

This athletic building will be the capstone of the new sports stadium. It is located to overlook the new athletic fields to the north and the campus to the south.

This 17,000 square feet, three-story facility will provide locker rooms, exercise, training rooms for student athletes as well as offices and conference space with a large function room and an adjoining plaza deck.

Nilsson Associates is collaborating with private higher education institutions in Southeastern New England. In addition to a full range of design services, the firm provides a range of planning services including campus master planning, strategic planning and facilities planning.
